AGU Monograph Series Vol.228-245

No.	タイトル	ISBN
1	Flood damage survey and assessment : new insights from research and practice	9781119217930
2	Water-energy-food Nexus : principles and practices	9781119243175
3	Dawn-dusk asymmetries in planetary plasma environments	9781119216346
4	Bioenergy and land use change	9781119297376
5	Microstructural geochronology : planetary records down to atom scale	9781119227250
6	Global flood hazard : applications in modeling, mapping and forecasting	9781119217886
7	Pre-earthquake processes : a multidisciplinary approach to earthquake prediction studies	9781119156949
8	Electric Currents in Geospace and Beyond	9781119324522
9	Quantifying uncertainty in subsurface systems	9781119325888
10	Petroleum engineering : principles, calculations, and workflows	9781119387985
11	Geological carbon storage : subsurface seals and caprock integrity	9781119118657
12	Lithospheric discontinuities	9781119249740
13	Chemostratigraphy across major chronological boundaries	9781119382508
14	Mathematical geoenergy : discovery, depletion, and renewal	9781119434351
15	Ore deposits : origin, exploration, and exploitation	9781119290544
16	Kuroshio current : physical, biogeochemical, and ecosystem dynamics	9781119428428
17	Geomagnetically Induced Currents from the Sun to the Power Grid	9781119434412
18	Shale : subsurface science and engineering	9781119066699
